

Oil/Gas & Energy

Oil & Gas / Energy industry is expected to see a decline in the workforce due to professionals retiring between 2006 to 2016. This makes this industry very competitive when companies recruit for a qualified professional. Companies are faced with the challenge of recruiting qualified professionals.

With the right combination of experience, degrees and certifications progressing within this industry can be fast an explosive.

We are always looking to meeting Oil/Gas & Energy professionals who have defined career goals and interested in career progression. Our recruiters can help with providing career advisement, resume critiquing, interviewing tips and exit strategies. We can be your eyes and ears within the job market and let you know when an opportunity arises in line with your career goals and plans.

We currently work with Fortune 500 companies and private companies or firms. We have a successful track record of placing individuals from Landmen to Petroleum Engineers. Our Oil/Gas & Energy recruitment expertise includes the following, but is not limited to:

Areas of Expertise

Engineers: Reservoir, Drilling, Completions and Production

Geologists

Geophysicists

Health, Safety and Environment
